UTAHNS TO INVADE BEAUTIFUL IDAHO

Commercial Club Plans Are Perfected for Springtime Northern Visit.

WHOLE WEEK ON THE ROAD.

The Train Will Consist of Three Pullmans, a Tourist Sleeper, Day Coach and Baggage Car.

Commercial club preparations for the big Idaho excursion which will be run on May 19, have been perfected, and an address is issued to the public giving all the details, including the runming schedule.

The Commercial club special will leave Sunday evening at 10 o'clock, with three Pullmans, one tourist car, a day coach and a dining and buffet

a day coach and a dining and buffet can, as the train equipment, and all the details as to expenses and schedule are set forth in the club's annuncement, which is as follows:

"Many of the Idaho cities that will be visited have already indicated through their officials and business organizations a desire to extend a cordial welcome to the excursionists and while the primary object of the excursion is to enable our merchants and manufacturers to meet, become acquainted and establish business relations with the people of Idaho, the social and sight-seeing phases of the trip will receive proper attention.

"At the time of year selected for the excursion Idaho is very beautiful, and Lany notable places of scenic loveliness will be visited.

HAS TRADE VALUE.

HAS TRADE VALUE.

The trade value of such expeditions as is now contemplated has been so frequently demonstrated that no argument is needed to prove their usefulness and profit. In the case of Idaho,

ness and profit. In the case of Idaho, however, so far as Utah merchants are concerned, this excursion is almost a necessity if we would retain and extend our trade in that section.

"Early in the month of May Idaho will be visited by a delegation of Portland jobbers under the auspices of the Commercial club of that city, and again in June by a large body of business men from the Commercial club of Omaha. This indication of enterprise on the part of rival cities must be met. on the part of rival cities must be met and surpassed by the most energetic efforts of our interested citizens.

"With this thought in mind we appeal to you to make a generous and public-spirited response to this invitation to you and the ladies of your family to become members of the Utah-Idaho Trade Excursion."

The itinerary for the trip contemplates visits to the following towns and the running time will be as follows:

SUNDAY, MAY 19.

Nasal Catarrh, an inflammation of the delicate membrane lining the airpassages, is not cured by any mixtures taken into the stomach. Don't waste time on them. Take Ely's Cream Balm through the nostrils, so that the fevered, swollen tissues are reached at once. Never mind how long you have suffered nor how often you have been disappointed, we know Ely's Cream Balm will cure you as it has cured others by the thousand. All druggists, 50c. Mailed by Ely Bros., 56 Warren Street, New York.

WILL NOT STRIKE.

Bell Linemen Conclude to Remain Passive for 10 Days at Least.

At yesterday afternoon's conference between the discontented linemen and General Manager Murray or the Bell Telephone company nothing particular was accomplished beyond the fact that there would be no grief on hand for the nuext 10 days. In the meantime President McNuity will be in San Francisco on business of the order, and the Salt Lake lodge will submit the proposition of a strike to the different locals of the district. The officials of the telephone company regard the situation as very much of a tempest in a teapot.

REEVES SOUNDS WARNING. Serves Notice to Fill up Coal Bins This Summer.

Interest in the fuel situation is growin; lay by day. With the outlook for an other coal famine staring them in the storing black diamonds right away, the people of the city are becoming awak-ned to the necessity for action in the

ened to the necessity for action in the matter.

Some there were last winter who had by forethought or chance, filled their coal bins to their extreme capacity before the famine came upon the town, and their example will be followed by thousands the coming summer.

"Another reason why people should be gin to store coal," said J. A. Reeves, general freight agent of the Oregon Short Line, who thoroughly understands the fuel situation. If any man in the state does, "is because coal itself is not always plentiful. That would not say that there is not a sufficient supply to be had, because there is plenty of coal in the ground. But just there is the point in the summer time the miners become scarce and the quantity of coal mined is not so large. I have before me now, continued Mr. Reeves, "a letter from a coal mine operator, saying he was prepared to open up a new mine, but could not do so on account of lack of miners. The men become strong in the summer.

IRREGULAR METHODS

Judge Morse Upholds Roden's Contention in Regard to Luke Judgment. Robert Roden of Nephi was yesterday

twarded judgment for \$56 against Fran is G. Luke, doing business as the Mer cis G. Luke, doing business as the Merchant's Protective association, by Judge Morse of the district court. Roden claimed that the method of business followed by Luke were irregular and misleading, and the contention of Roden's attorneys was by implication upheld by the judge. Roden was served with a summons out of Justice Durand's court in Murray for a debt of \$254.70, placed in Luke's hands for collection by the Nephi Co-operative association, in 1905. Roden claimed he did not owe the bill, and refused to pay it. Nothing more was heard of the matter until April, 1896, when his wages at Nephi were garnished under a judgment obtained against him in Durand's court in this county. Roden paid \$50 to avoid having his wages attached, and entered suit against Luke, denying the jurisdiction of the Murray court in the matter, and it is on this suit that Judge Morse entered decree, awarding Roden judgment against Luke for \$50. It is thought Luke will appeal to the supreme court, as many of his transactions are based on similar proceedings. chant's Protective association, by Judge

BODY BROUGHT HOME.

Funeral of E. C. Sheppard, Killed at Rhyolite, Occurs Tomorrow.

The body of E. C. Sheppard arrived from Rhyolite, Nev., this morning, and the funeral will occur from the undertaking establishment of Joseph E. Tay-

tor tomorrow at 1 p. m.

Mr. Sheppard, who was 31 years of age, was killed in the Skookum mine at Rhyolite last Friday, but beyond the brief announcement of his death the family is not in possession of any details. He was a resident of the Twenty-second ward, this city, all his life, and resided at 458 west Fourth North prior to going to Nevada. He was unmarried but has a number of relatives in this city.

hermometer stood at 37 degrees F. n the pioneer camp. The weather was The company traveled six miles of forencon. Many of their ani-wers nearly famished for want and, for every green thing was off by the buffaloes; the travels ten off by the buffaloes; the travels saw about a hundred thousand at day. During eight or ten days st, they had noticed large patches the ground covered with effloreenes of salt. The place of their campinent was some two or three lies above the lower end of Brady's land, in the eastern part of what new Lincoln county, Nob., or near e present site of Brady Island stand on the Union Pacific railway, 23 files east of the town of North atte. "At this point," writes Orson rat, "the bluffs for the first time ake up to the river's side. These uffs are sand hills, almost desitute vegetation. On the top of some of ese sand hills, in the driest places, sew a vegetable, the top of which the being dug, the root was about

one and a half inches in diameter, and two feet in length. It was called, by some of the company, a Spanish soap weed. The roots being pounded up, they make a very good suds, and are used in Mexico for washing reiment, etc. The hills or bluffs on the opposite side of the river have increased in elevation, and present a more broken and picturesque appearance. At this season of the year, the buffalo are, the most of them, poor for the want of sufficient food; we have killed no more of them than what the present necessities of the camp require. The bones and carcases of the buffalo have been more or less abundant since we left the Loupe fork, and among them is frequently found human bones, probably those of Indians; several human skulls have been discovered, which were whole and entire. There is some scattering timber upon the islands, principally willow and cottonwood."

Under this date (May 8th) William Clayton writes: "I have counted the revolutions of a wagon wheel in order to get the exact distance we have taken this method which is somewhat tedious, is because there is gen-At 5 o'clock in the morning the

erally a difference of two, and some-times four, miles in a day's travel be-tween my estimation and that of some others, and they have all thought I underrated it. This morning I deter-mined to take pains in order to know for a cartainty how far we would travel today. Accordingly I measured the circumference of one of the hind wheels of Brother Kimbail's wagon, being the one I sleep in, in charge

Here Is a Sale That Is Entirely Out of The Ordinary.

The Best Values in Women's Hosiery We Ever Offered - A First-Class Stock in the Highest Sense of the Word-Every Pair Imported-Every pair in Style
